RETIEF GOOSEN 2001 & 2004 US Open Champion

## THE GRIP MASTER LEATHERS

We select the finest full grain, natural leather hides from the world's best herds. Each hide is tanned with our proprietary process, milled for the perfect touch. Then they are hand crafted into the world's finest grips.

This leather will meet and exceed the demands of the world's finest players. The Grip Master Leather grips will out perform all man made materials. Torsional loading, traction control in all climates, high loading stability, are just some of the areas where The Grip Master leather grip is better. Developed on the Tour, our system (Trac+) has a perfect traction. This treatment of the leather affords perfect traction under all weather conditions. We select each type of skin for a particular set of characteristics, using the world's leading tanners to perfect the skins to our needs. Our grips are found in Tour Pros bags on all Tours.

The Grip Master is the number one leather grip on Tour.

Change your game, change your grips today!
